

From us all at Networks: Thank you, Give First!

We hereby report on the latest acquisition we have been able to purchase because of your generous contribution to our Pre and Post Natal Care project. After a long weary wait on the car company, we have finally been able to pick up the brand-new car and start using it for the women who benefit from the Care Program. Our team, Rodi, Ellen and Sarah are utterly grateful that they can now rely on a car of their own, to sort out logistics and transport for all the activities that they run weekly in the communities that we serve.

Blessings,

Networks Team
